Helping people discover God's path to hope, faith, and freedom

# The path to freedom is waiting for you.

attitudes • behaviors • emotions • relationships • substances

On the surface, many people seem to lead happy and successful lives. However, below the surface, life-controlling issues are keeping them from fully becoming the person God desires them to be.

The barriers to true spiritual freedom come in many shapes and sizes. Because people and lifestyles are different, so are what controls an individual's thoughts and actions. A "one size fits all" approach simply cannot meet the needs of everyone. The best approach is to meet people where they are.

Living Free exists to provide churches and communities with Christ-centered guidance resources and training to help people turn to God and His resources when dealing with life's problems. Through self-examination, this customizable guidance program promotes a compassionate and safe environment where God speaks to individuals directly and lives are changed forever.

*A "one size fits all" approach simply cannot meet the needs of everyone.*

## Living Free™

### church-centered growth and healing

The truth is, *everyone* struggles with sin and it can manifest itself in various forms. With a focus on moving churches toward a deeper relationship with Christ and His purpose, Living Free helps those hiding behind their "Sunday Smiles" toward godly freedom.

Living Free is a safe place where people examine what might be holding them back and find strength to move ahead. They are places where people learn to drop unnecessary burdens and make choices that help them grow to their full potential in Christ.

### referral and non-residential recovery groups

You don't have to look very hard to find someone suffering from the effects of life-controlling issues in your community or neighborhood. Imagine a community where believers are fulfilling the great commission by providing people outside the church with hope, faith and freedom.

Living Free Community provides the resources to help establish a non-residential or referral ministry by utilizing a small-group strategy.
